COMMUNICATION

Sir:

The applicants received a Notice of Allowance dated June 29, 2006, in the above-identified patent application. The Determination of Patent Term Adjustment Under 35 U.S.C. 154(b) that accompanied the Notice of Allowance indicates that the patent for this application would be eligible for 497 days of Patent Term Adjustment. For the record, applicants believe the patent would only be entitled to 442 days of Patent Term Adjustment.

During prosecution of this application, applicants received a Notice to File Missing Parts of NonProvisional Application dated June 7, 2001 (copy attached). The applicants' reply to the Notice was received in the U.S. Patent Office on October 22, 2001, as indicated by the return receipt postcard (copy attached). This reply constituted a 55 day applicant delay. While the PAIR record does show the dates of the Notice and applicants' reply, it does not indicate a 55 day applicant delay, which would be necessitated due to applicants' reply being filed over three months from the date of the Notice.

Respectfully submitted,
